Material services

Maintenance material

Are your service professionals already on site? Are you just missing the material to carry out maintenance on your ProMinent system yourself in line with the applicable specifications? We can help here too. We can provide the material separately of our maintenance service.

You can rely on that

- High-quality genuine materials
- Set of materials tailored to your ProMinent system with all the sealing and wearing parts you need to replace in accordance with the manufacturer's specification
- Reliable availability of the material

Clear benefits for you

- Maximum operational reliability
- Reduction in unscheduled failures
- Fixed price when coupled with a service contract
- Planning certainty
- No long lead time on parts, these will be in your stores on site ready for when you need them

Ready for you.
