

Customer Services – Service unlimited

Material services

Repair material / Spare parts

Are your service professionals already on site? Do you simply not have the material to repair your ProMinent system yourself? We are also happy to provide the material you need independently of our repair service.

You can rely on that

- High-quality genuine materials
- Reliable availability of spare parts
- Rapid delivery
- Spare parts material tested in line with ProMinent standards

Clear benefits for you

- Maximum operational reliability
- Critical spares on site 24/7
- Reduction in unscheduled failures
- Extended service life of your system
- High proportion produced in-house and so maximum availability of material

Ready for you.
