Material services

Repairs Material Box

This box is packed full of things to help with immediate remedial action on your ProMinent system. It is individually equipped with all the necessary and recommended spare components and stored on site. So you can respond immediately when necessary.

You can rely on that

- Availability of materials tailored to your system
- Inventory list, order form and contact details included
- Box with clear labelling for a transparent ordering process

Clear benefits for you

- Shorter downtimes
- Maximum speed of response
- Support from ProMinent's technical consulting

Ready for you.
