Training services

Training Service Level 2

Familiarise yourself with your product. Already completed level 1? Then in level 2 we will show you how to undertake tests and minor repairs yourself. You will get a good overview and learn to better understand how your ProMinent system works.

You can rely on that

- Theoretical and practical knowledge
- Training from experts
- First-hand information

Clear benefits for you

- Operating safety
- Awareness of how the product works
- Reduction in downtimes
- Attendance certificate

Important to know

- Training is carried out on site on your system
- Number of participants to suit your system
- Availability of operating instructions
- Precondition for attendance: Level 1 training

Ready for you.
